Dear Families,

As always, we are committed to doing our very best to support and care for our families.

Thank you for your continued trust and partnership.

March is a month of change and new beginnings in our community. As winter slowly turns into spring, the children will notice changes around them, longer days, changing weather, and early signs of new growth.

This is a wonderful time for curiosity, exploration, and learning.

Throughout the month, we will focus on activities that encourage creativity, independence, and hands-on learning. The children will enjoy art projects, sensory play, early literacy activities, and practical life work that help build confidence and important skills. As the weather improves, we look forward to spending more time outdoors enjoying fresh air and movement.
